-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

REPEATED REJECTIONS

1. The 35 U.S.C. 103(a) rejection of Claims 23 – 49 as being unpatentable over Lind et al (U.S. Patent Publication No. 2001/0003624) in view of Agouri et al (U.S. Patent No. 4,126,648), of record on page 2 of the previous Action, is repeated.

ANSWERS TO APPLICANT'S ARGUMENTS

2. Applicant's arguments regarding the 35 U.S.C. 103(a) rejection of Claims 23 – 49 as being unpatentable over Lind et al (U.S. Patent Publication No. 2001/0003624) in view of Agouri et al (U.S. Patent No. 4,126,648), of record in the previous Action, have been carefully considered but have not been found to be persuasive for the reasons stated below.

Applicant argues, on page 6 of the remarks dated August 30, 2007, that the rejections are improper because Lind et al discloses at least three layers, in which at least one layer is a barrier layer, described at paragraph 0014.

However, as stated on page 2 of the previous Action, Lind et al is not limited to a film comprising a barrier layer; Lind also discloses a film comprising one layer comprising a single layer comprising an ethylene polymer (paragraph 0013) or a multilayer film comprising ethylene polymers made with a metallocene catalyst (paragraph 0013) for providing increased strength and faster bag making speeds (paragraph 0013). Alternatively, the film may also comprise a barrier layer as disclosed in paragraph 0014, but paragraph 0014 is not mentioned in, and is not relevant to, the rejection.

Art Unit: 1794

Applicant also argues on page 6 that Agouri et al teach 55 – 85% low density polyethylene by weight and 45 – 15% high density polyethylene and / or polypropylene by weight; Agouri et al, Applicant argues, therefore do not teach the percentages of low density polyethylene and high density polyethylene alone.

However, because the percentages are taught by Agouri et al, the percentages of low density polyethylene and high density polyethylene alone are taught by Agouri et al.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
